

Food Service System Administration Manager

Position Details

Class Code: 5269

Job Family: Food Service

Classification: Support Professional

Terms of Employment: [Pay Grade 64 on the Support Professional Salary Schedule](#)

FLSA STATUS: NON-EXEMPT

Position Summary

Under general direction, responsible for the successful daily service delivery of Food Services servers, storage, backup and recovery, operational systems and processes, as well as project management and technical leadership to ensure the needs of school and department customers are met.

Essential Duties and Responsibilities

The list of Essential Duties and Responsibilities is not exhaustive and may be supplemented.

1. Confers and coordinates with application, database, educational and business owners, and allied professional staff to review needs, formulate requirements, and prepare feasibility studies, evaluations, and project plans; implements and ensures consistent, reliable service delivery of Food Services servers, storage, backup and recovery systems, and operational processes.
2. Plans, schedules, supervises, reviews, coaches, and leads assigned staff.
3. Ensures accountability and evaluates assigned staff in areas of customer service, system availability, sustainability and recovery, security, process and procedures, technical assistance, and change and quality control.
4. Provides input into goals, objectives, and budget development for the department.

5. Acts to maintain the department's position in the Clark County School District (CCSD) as the centralized Food Services information systems provider.
 6. Coordinates with appropriate technical, functional, and support teams to ensure systems are properly configured and operating according to established procedures, desired availability, and generally accepted Information Technology (IT) and Food Services industry practices.
 7. Documents and maintains system landscapes, internetworking diagrams, equipment locations, naming conventions, system ownerships, and other necessary details.
 8. Ensures that the team recommends, designs, implements, and sustains specifications for strategic systems that provide high availability, business continuity, and disaster recovery capabilities.
 9. Ensures that the team recommends, designs, implements, and sustains multi-faceted security frameworks to protect systems, applications, and data that include technologies such as operating system hardening, anti-virus, patch management, encryption, privileged role isolation, proactive auditing, etc.
 10. Ensures systems are regularly audited using vendor-provided, third party, and internally developed tools.
 11. Monitors systems quality and performance to determine availability, reliability, efficiency, security, and utilization.
 12. Establishes priorities and work schedules; meets with staff, user departments, and leadership to provide periodic updates on projects and schedules.
 13. Schedules and facilitates preventative maintenance activities for Food Services servers, storage, and backup/recovery systems; reviews problems encountered by staff and customers; analyzes efficiency of current systems and procedures and schedules modifications and enhancements.
 14. Utilizes the CCSD project planning and management tool to develop project plans for approval, update and report status of approved projects, and review work in progress to assure conformance to plans and standards.
 15. Conforms to safety standards, as prescribed.
 16. Performs other tasks related to the position, as assigned.
-

Distinguishing Characteristics

Involves technical leadership, coaching, service delivery, customer service, project management, ensuring availability of Food Services servers, storage, backup/recovery systems, and day-to-day supervision of the activities of team members.

Knowledge, Skills, and Abilities (Position Expectations)

1. Knowledge of principles and practices in developing teams, motivating employees, and managing in a team environment, including supervision, work planning and organization, performance evaluation, professional development, coaching, and progressive discipline.
2. Knowledge of and ability to apply project management principles and practices.
3. Knowledge of and ability to apply principles, practices, and methods related to systems architecture, including server, storage, network, backup, recovery, and archival systems, with adaptability for evolving educational and business needs.
4. Knowledge of systems, applications, operating systems, and database platforms within the CCSD environment.
5. Knowledge of principles, practices, and methods in Food Service systems strategy, information management, system governance, business continuity, and disaster recovery.
6. Ability to manage multiple projects, coordinate and track resources, and meet deadlines.
7. Ability to supervise, develop, motivate, coach, and evaluate assigned staff.
8. Ability to apply established IT industry practices in a variety of workplace circumstances.
9. Ability to participate in and contribute to Food Service system strategies and governance processes.
10. Ability to prepare clear, accurate, and concise reports, documentation, user instructions, correspondence, and other written materials; maintains well-organized and accurate records.
11. Ability to develop, prepare, and make presentations to audiences of varying sizes and characteristics.
12. Ability to exercise independent judgment within established procedural guidelines.
13. Ability to contribute to the efficiency and effectiveness of the department's service to customers, colleagues', and the CCSD by offering suggestions and directing or participating as an active member of a work team.
14. Ability to develop and maintain effective working relationships with CCSD staff, vendors, and other agencies.
15. Ability to maintain knowledge of current and emerging information regarding Food Service technology and its application and potential effectiveness in the CCSD environment.
16. Ability to work flexible hours/shifts.

17. Ability to be on call for after-hours support.
 18. Ability to recognize and report hazards and apply safe work methods.
 19. Possess physical and mental stamina commensurate with the responsibilities of the position.
-
