

# Air Quality Management Technician I

## Position Details

Class Code: 2114

Job Family: Business/Finance

Classification: Support Professional

Terms of Employment: [Pay Grade 54 on the Support Professional Salary Schedule](#)

FLSA STATUS: NON-EXEMPT

---

## Position Summary

Under general supervision, performs a variety of air pollution control functions, including planning activities, assistance in the development air quality standards and procedures, and conducting site inspections to ensure compliance with air pollution control standards.

---

## Essential Duties and Responsibilities

This list of Essential Duties and Responsibilities is not exhaustive and may be supplemented.

1. Performs required opacity inspections of generators, chillers, boilers, and other equipment subject to air pollution permitting requirements.
2. Documents equipment performance and malfunctions using appropriate methods and techniques.
3. Submits compliance data to the Department of Air Quality (DAQ) and ensures proper reporting to the U.S. Environmental Protection Agency (EPA).
4. Investigates reported violations, verifies that necessary repairs are made, and submits all required documentation to the DAQ.
5. Patrols assigned geographic areas of Clark County to ensure compliance with air pollution standards across the Clark County School District (CCSD).

6. Communicates with CCSD staff, vendors, and contractors regarding system operations and air pollution compliance.
  7. Uses various computer applications to manage air pollution permits, applications, system reports, and malfunction reports on a monthly and yearly basis.
  8. Monitors and develops applications and permits for newly installed equipment.
  9. Prepares reports and recommendations by analyzing data trends from on-site equipment.
  10. Performs technical analysis of federal and local air quality regulations to ensure DAQ procedures remain effective and compliant.
  11. Maintains accurate files and records of departmental activities, inspections, and test results.
  12. Conforms to safety standards, as prescribed.
  13. Performs other tasks related to the position, as assigned.
- 

## **Distinguishing Characteristics**

Involves using EPA Method 9 observations to determine that permitted equipment is operating properly and meeting all air pollution control requirements.

---

## **Knowledge, Skills, and Abilities (Position Expectations)**

1. Knowledge of applying for and permitting minor sources through the DAQ.
2. Knowledge of diesel and natural gas generator systems.
3. Knowledge of hot water boiler systems.
4. Knowledge of cooling towers systems.
5. Ability to interpret and apply local, state, federal, and national codes and regulations, including the Universal Building Code (UBC), Uniform Mechanical Code (UMC), Uniform Plumbing Code (UPC), National Electrical Code (NEC), and American Society of Heating, Refrigeration and Air-Conditioning Engineers (ASHRAE), etc.
6. Ability to learn and use various business-specific software, including Microsoft Office, Adobe Acrobat, and email systems.
7. Ability to work flexible hours or shifts.
8. Ability to safely lift, move, and relocate heavy objects.
9. Ability to read and interpret mechanical and electrical drawings, blueprints, and schematics.
10. Ability to logically troubleshoot visual emissions.

11. Ability to communicate clearly, both verbally and in writing.
  12. Ability to safely operate power/hand-operated tools and equipment.
  13. Ability to meet predetermined deadlines.
  14. Ability to withstand heights, extreme heat, and confined areas for extended periods of time.
  15. Ability to work cooperatively with employees and the public.
  16. Ability to recognize and report hazards and apply safe work methods.
  17. Possess physical and mental stamina commensurate with the responsibilities of the position.
- 

## **Position Requirements**

### **Education, Training, and Experience**

1. High school graduation or other equivalent (General Educational Development [GED], foreign equivalency, etc.).
2. Two (2) years' experience in applying, monitoring, and permitting minor sources for air quality compliance.

### **Licenses and Certifications**

1. A valid driver's license that allows the applicant/employee to legally operate a motor vehicle in Nevada. License must be maintained for the duration of the assignment.
2. Current driving history (dated within six [6] months from the date printed) issued by the Department of Motor Vehicles (DMV) at time of application or Qualified Selection Pool (QSP) placement and at time of interview prior to final selection.
3. Safe driving record. Safe driving record must be maintained for the duration of the assignment.
4. Current EPA Method 9 Certificate.

### **Preferred Qualifications**

Knowledge of computer systems and data management.

---

## **Document(s) Required at Time of Application**

1. High school transcript or other equivalent (GED, foreign equivalency, etc.).
2. Copy of a valid driver's license that allows the applicant/employee to legally operate a motor vehicle in Nevada.

3. Copy of current copy of driving history (dated within six [6] months from the date printed) issued by the DMV.
  4. Safe driving record.
  5. A valid EPA Method 9 Certification.
  6. Specific documented evidence of training and experience to satisfy qualifications.
- 

## **Examples of Assigned Work Areas**

CCSD facilities – offices, schools, mechanical equipment rooms, and classrooms.

---

## **Work Environment**

### **Strength**

Medium/heavy - exert force of 50-100 lbs., occasionally; 25-50 lbs., frequently; 10-20 lbs., constantly.

### **Physical Demand**

Frequent sitting, standing, walking, pushing, pulling, stooping, kneeling, climbing, crouching, reaching, handling, and repetitive fine motor activities.
